

Project Overview

The Benning Road Reconstruction and Streetcar Project is a preliminary design project aimed at improving the Benning Road corridor to safely and efficiently accommodate all modes of transportation.

The project will focus on nearly 2 miles of Benning Road NE between Oklahoma Avenue NE and East Capitol Street, addressing needs for infrastructure improvements, bridge rehabilitation, safety enhancements, and an eastward expansion of DC Streetcar transit service.

Key Project Elements

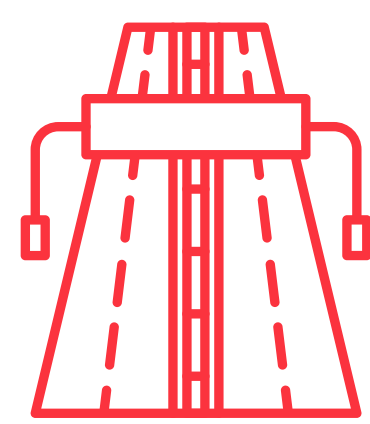

Bridge and roadway rehabilitation and replacement

Pedestrian and bicyclist safety enhancements

Safety and streetscape improvements

Interchange modifications at DC-295/Benning Road ramps

Median-running streetcar

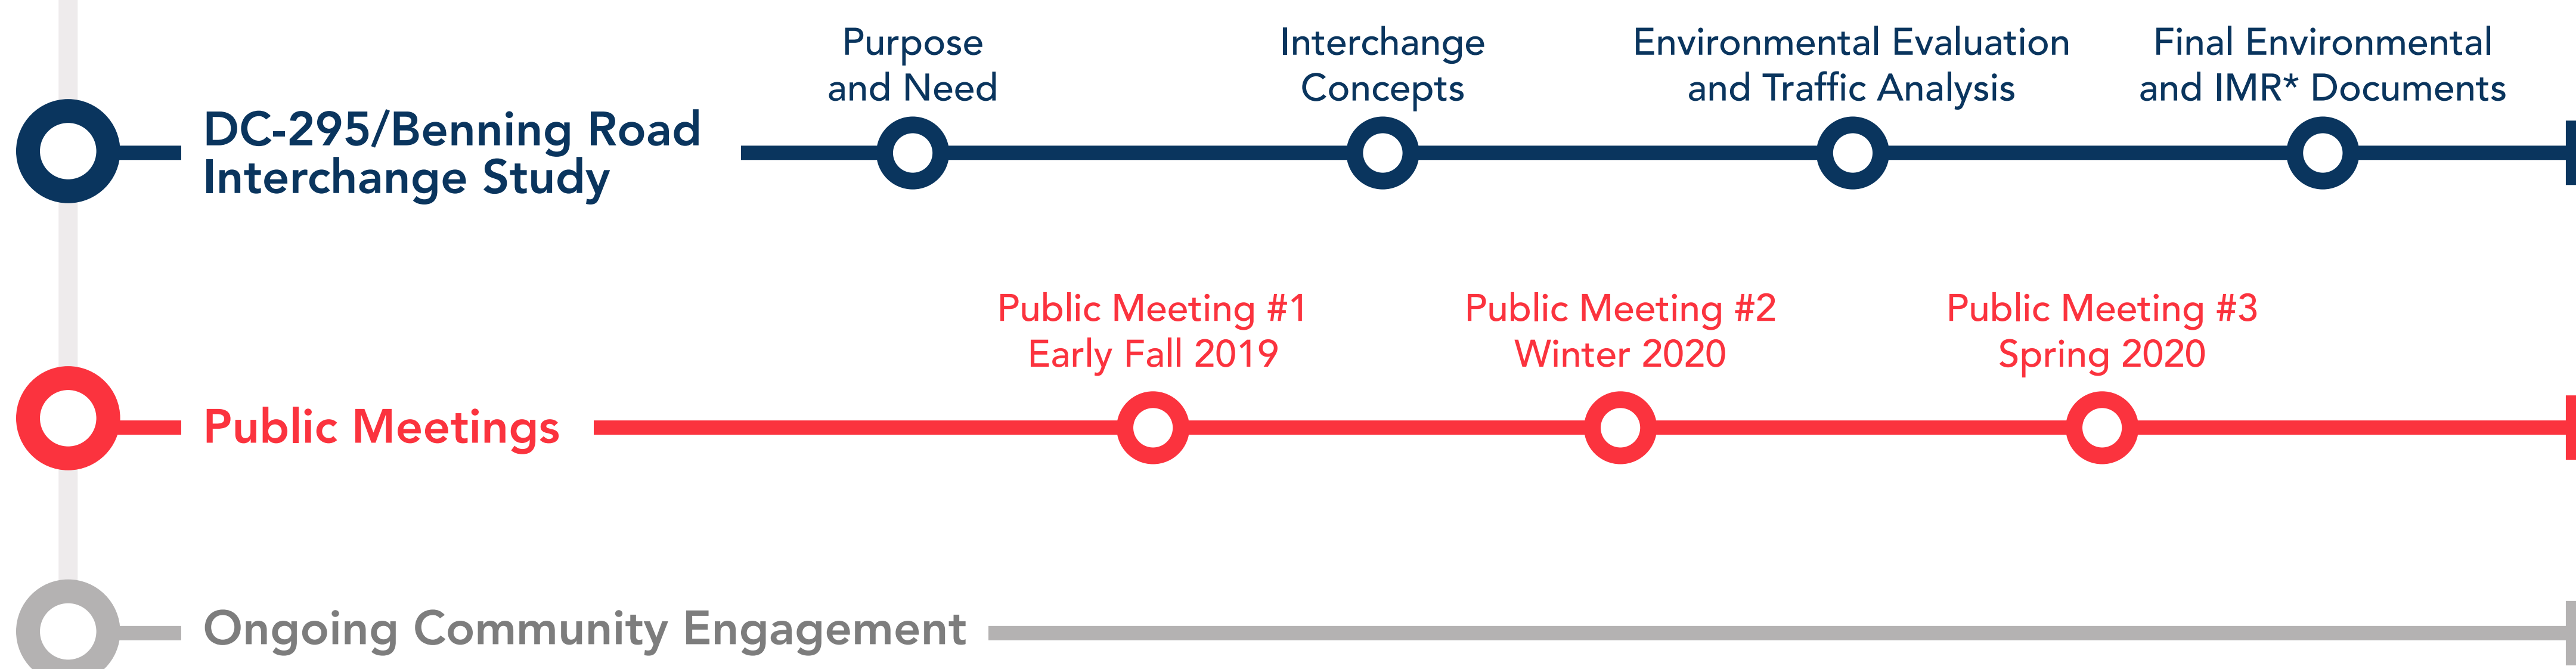

Streetcar end of line at Benning Road Metrorail station

Schedule

Benning Road Preliminary Design (18 months)

Bridge Design • Streetscape Design • Streetcar Stop Planning

*Interchange Modification Report
